

Key Benefits

- **Increases soil carbon levels** for energy, water and nutrient holding capacity.
- **Increases pest and disease resistance** in plants & turf.
- **Greater biological activity in the soil** promotes availability of both target and other tied-up nutrients in the soil.
- **Carbon King Urea™ secures Nitrogen within the soil**, reducing volatilization and leaching by up to 30 % of standard Urea.
- **Carbon King Urea™ increases energy, water and nutrient holding capacity.**

**Improved soil health reduces input costs through efficiency.*

TYPICAL ANALYSIS (w/w)

- Nitrogen 46%
- Carbon 21%

PRODUCT SPECIFICATIONS

- Slow release 2-4 mm Granules

QUANTITY SIZES (PER 1000KG)

- Loose Bulk
- 1 tonne Bulk Bags
- 25 kg Bags
- 20 kg Bags

STORAGE STABILITY

- C-C-U unique coating increases product storage & stability.

APPLICATION GUIDE

Application Rates should be determined by soil analysis and applied in conjunction with a balanced nutrition program.

The following rates are generalized for irrigated and dry land cropping. For intense horticulture these rates can be increased.

Carbon King UREA is best applied broadcast or Direct Drill, Horticultural Spinner Spreaders and small walk behind Applicators.

Maintenance: 50-150 Kg/Ha

Soil Building: 150-350 Kg/Ha

Horticulture: 250-450 Kg/Ha

Compatibility: Contact your advisor regarding the suitability of the product for your requirements.

Note: This Blend can be used to uniquely formulate a fertiliser to suit a specific need in any crop.

Disclaimer FertPro Manufacturing Pty Ltd provides this information & application document as a guide and reference point for fertiliser application qualified professionals. This document needs to be supported by the means of soil tests and or leaf tests for a qualified professional to decide on application rate. FertPro Manufacturing P/L accept no responsibility or liability for the validity of testing, application of fertiliser or crop response as an outcome from information provided. It is the responsibility of each farming operation to keep our environment safe and clean for all generations. Use qualified advice, stringent planning and ownership of your decision before acting on any information provided.
